The club has been asked by Altone Recreation Centre Management to remind all spectators that they should have no controversial, aggressive or angry exchanges with people from other clubs (or our own).
Any issues you have, should be addressed to your child's coach and should you wish to take the matter further it is to be addressed by JULIE GOMES AS PRESIDENT and the matter can be addressed through the appropriate channels at the centre.

A number of teams are being disadvantaged by the failure of children to commit to attending training & games each week. Unless a prior arrangement is made with the coach, it is a condition of registration that the child will attend training and the games each week. Please consider this over the holidays as the current situation cannot continue.
Parents and spectators are reminded that from the moment the coach begins the Team warming up process and until after the game, you should not have contact with your child as it causes confusion and the child is distracted from the coach's instructions. You should never approach the coach during the game as their concentration should be on the team all times.

**Expections of Club and Coach**

1. **A mouth guard is strongly recommended**
2. **A bottle of water**
3. **Correct shoes and uniform**
4. **Your child is expected to be present atleast 15 mins. before the start of each game.**

**A friendly reminder :** As the club is growing we are in continuous need for good basketball coaches, please contact me if you are interested.

It is really important that Parents volunteer to help score.
Each team is required to provide 1 scorer every game.
If there are not enough people volunteering to score or learn to score, unfortunately we will have to set up an inflexible roster like other clubs....... 

**Please sign to accept you have read and understood the above, and let's all look forward to a fun & rewarding season for your child.**
