

SEQTA Engage

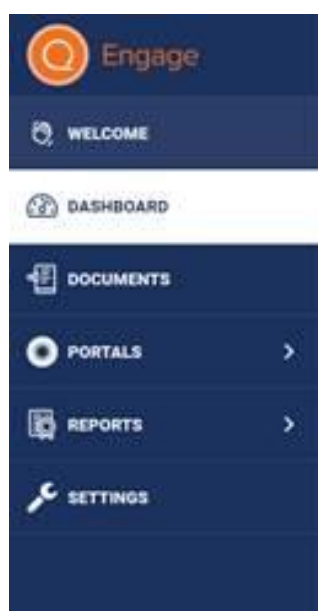

SEQTA Engage is an online platform used by Good Shepherd to communicate with parents and contains important information about your child's education.

Parents may access SEQTA Engage through the app or online via the website.

If you do not have an active account please ensure you create one. All email addresses listed with the school have been sent a welcome email to create an account – as long as there is one account per family that is all that is required.

A few reminders about SEQTA Engage:

- Parents will receive email notifications from teachers to let you know that you have a Pastoral Care note that requires you to log into your Engage account to read the information sent to you by teachers
- Pastoral Care types include notes regarding your child's Uniform and Behaviours
- Notes from Parent interviews with teachers will be recorded through SEQTA and available for parents to access immediately once submitted by the teacher
- All Pastoral Care notes will be located under the 'Dashboard' tab on the left-hand side when you log into your Engage account as seen below
- All students in PP to Year 6 must have an active Engage account to be able to access School Reports. If you do not have an active account, please contact the front office.

It is an expectation that parents will monitor their notifications and Engage accounts to be up to date with their child's progress at school. Repeated notifications of specific pastoral care notes may be followed-up with a request for parents to attend a face-to-face interview with appropriate staff.
